

Professional Accountant / Business Adviser

We are a relatively new firm of Chartered Accountants and Business Advisers who have experienced substantial growth over the past number of years. This has been achieved through the provision of outstanding client care and advice from our hugely experienced team of dedicated professionals.

To sustain this growth and meet the ever-changing demands of our expanding client base we require additional resources to contribute immediately to the development of our business.

Accountant /Business Advisor

The successful candidate will be professionally qualified and have a skill-set that will cope with:

- Preparing management and year end accounts for a range of businesses across all sectors including small, medium sized and large.
- Preparing forecasts, business plans and other ad hoc reports.
- Involvement in Statutory Audit work.
- A sound knowledge of and interest in cloud based accounting systems, to assist clients with the implementation of these.
- The ongoing development of the practice.
- A good working knowledge of Corporate and personal tax.

Are you ready for the next challenge of joining a dynamic team and a growing business - developing your career to the limits that only you will set. This is a real opportunity for the right person to be involved in the strategic development of this practice and to participate in the rewards that will bring.

Remuneration and benefits will be wholly commensurate with qualification and experience and of course what you can bring to our team. For the right candidate we anticipate a starting benefit package of £40k-£45k.
